

Expanding Space Research Through Collaboration

A breakdown of NASA's Launch Services Program and working at NASA

Jonathan Kessler

NASA/ KSC

This session will explore NASA's Launch Services Program (LSP), the CubeSat Launch Initiative (CSLI), and working at Kennedy Space Center. We'll discuss LSP's role in mission planning, launch vehicle selection, and launch execution, as well as CSLI's impact on CubeSat development.

About the Presenter

Jonathan Kessler is an alumnus of UCF and the Florida Space Institute and works at NASA's Launch Services Program (LSP), specializing in Communications and Telemetry systems. He has worked on launch site infrastructure for NASA's Psyche and GOES-U missions and is currently working on the Europa Clipper mission launching in October, 2024.

Wednesday, Aug 28, at 03:30 p.m.

About the Series

Inspired by UCF's latest Strategic Plan, the Florida Space Institute (FSI) is undertaking new efforts to promote space research at UCF. We are thrilled to continue this Seminar Series this spring focusing collaboration, which highlights the diversity of space-related topics investigated by UCF faculty. From growing plants on the Moon to fighting astronaut osteoporosis to planetary defense nothing is off-limits in these seminars! We cordially invite you to join us to foster new collaboration opportunities and help grow space research at UCF!
